

Yellowstone in your way
Michael Sun

The park will take you
On a journey you expect
There are animals and plants
For you to suck into your eyes.

The animals are roaring
In their fate of survival
Some animals are rushing, when some are slow
The plants are growing, for becoming a herbivore dish like a charm
They will be helpful for the animals, for Yellowstone to be nutritional

Yellowstone National Park is as big as Nauru
Oh, Yellowstone the Great is waiting for you to come
